Boldr Pro platform

The Boldr Pro App gives HVAC contractors a dedicated installer workflow and a full dashboard to monitor and manage every customer system from one place.

- Set up in minutes
- Unlock Pro features after setup

Monitors unit efficiency over time.
Sends maintenance alerts in the app.

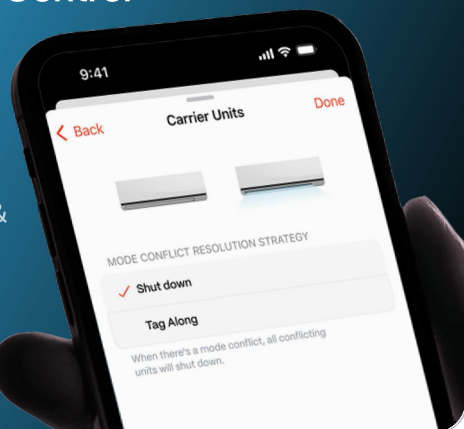

Eliminates temp. swings and overshooting
in all mini-split systems, including
improperly sized systems.

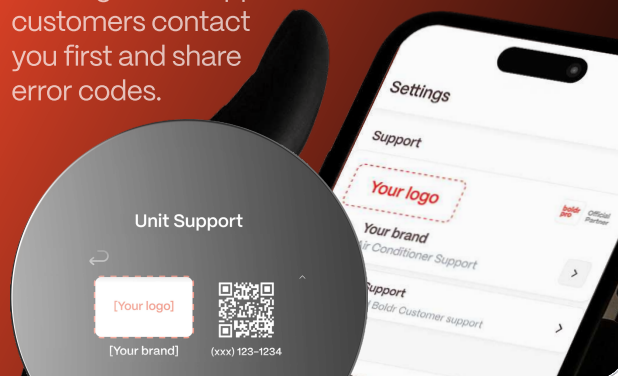

Avoids mode conflicts in multi-zone systems without unnecessary calls.

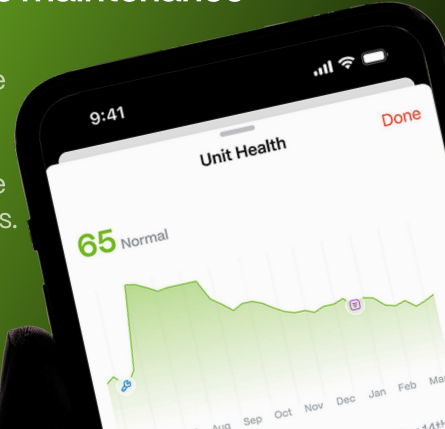

Monitor unlimited controllers, properties, unit health, warranties & commands.

Your logo in the app so customers contact you first and share error codes.

Detect performance issues in real time before they become costly failures.
